**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Quality broadband internet is a necessity for both my business and my home life with my family.

The local carrier I use is the best ISP I've ever encountered.

That is in contrast to Comcast/Xfinity...which is the worst business I've ever interacted with. AT&T is also terrible at providing quality service. I have been forced to use them both at different times and am now happy I don't have to give them my hard earned money.

Both AT&T and Comcast are also very overpriced and deliver an inferior product. Those big businesses don't care about what they provide or how they treat their customers. My local ISP cares about me and the service they provide...all while costing me the least.

Do you remember when AT&T was broken up in 1982? I do, and it was one of the best decisions in government regulation ever to come from the USA. There are many reasons for this and I hope you've educated yourself about them.

Please do not allow AT&T and Comcast to further their corporate greed. The internet is a needed utility for every citizen of America. Keep competition alive and don't let big bullies be corrupt businesses.
